

Jumars Lettuces

MARILYN

- ROMAINE TYPE
- For spring autumn winter crops in temperate zones
- Outdoor cultivation
- Resistance to flowering (bolting) and tip burn
- Fast, compact, very uniform growth
- Good weight
- Intermediate resistance (IR); intermediate
- BL diseases; 1-29/LMV
- Dark green leaves
- Origin: Israel

KAROL

- LITTLE GEM GREEN TYPE
- For spring autumn winter crops in temperate zones
- Outdoor cultivation
- Resistance to flowering (bolting) and tip burn
- Fast growth, growth with long and dense buds
- Medium size weight approx 450-500 Grams
- Crisp green leaves
- BL diseases; 16-34/LMV
- Origin: Israel

RAQUEL

- LITTLE RED GEM TYPE
- For spring autumn winter crops.
- Outdoor cultivation
- Resistance to flowering (bolting) and tip burn
- Fast growing, small trunk
- Medium size 450-500 grams
- Dark, shiny, crispy red leaves
- Resistances;
- High(HR), BI, ES, GB
- Intermediate(IR);LMV, ES, GB

CONI

- RED ROMAINE TYPE
- For spring crops, autumn winter in temperate zones
- Bright dark red color, rounded leaves
- Resistance to flowering (bolting) and tip burn in its time
- Early maturation
- Measurement 27-30 cm app
- BL diseases; 16-34/LMV
- Origin: Israel

GRACIA

- MANTENCOSA OR SPANISH GREEN TYPE
- For late spring summer autumn crops in areas temperate.
- Very good resistance to flowering (bolting)
- High resistance (HR) To 8 races of bremia (16-21-23-32)
- Great uniformity, adaptability and size
- Mid cycle
- Bright green leaves
- Origin: Israel

YOVI

- TANGO / MULTI GREEN LEAF TYPE
- For spring summer autumn sowing
- Very good medium resistance to flowering (bolting) and tip burn.
- Fast, large growth, volume.
- IR resistances: intermediate
- BL diseases: 16-19; Bl:16-33
- Origin: Israel

Distributed by Jumars Seeds

BARBARA

- LOLLO BIONDA TYPE
- For spring, autumn and winter crops in temperate zones and all seasons in conditions hydroponics.
- Very good medium resistance to flowering (bolting) and tip burn.
- High resistance (HR) To 16 races of bremia (16-31)
- Fast cycle, intermediate resistance: LMV:1
- Excellent green leaves
- Origin: Israel

MUÑECA RUSA / MATRIOSKA

- FRENCH OR RED BUTTERY TYPE
- For spring and summer crops in temperate zones.
- Very good resistance to flowering (bolting)
- High resistance (HR) To 12 races of bremia (16-26-28)
- Intermediate resistance (IR) to fosarium
- Very uniform
- Leaves intense red color and maintains it with high temperatures
- Origin: Israel

Distributed by Jumars Seeds

MARISEL

- OAK LEAF TYPE
- For spring crops, Autumn in temperate zones.
And all season in hydroponic conditions.
- Erect plant, high tolerance to twisting
- Very good medium resistance to flowering (bolting)
- High resistance (HR) To 14 races of bremia (16-29) and to virus
- Great uniformity, adaptability and size
- Fast cycle
- Leaves excellent light bright green color
- Origin: Israel

MILENA WINTER

- MILANESA or CHILEAN TYPE
- For autumn winter crops
- High resistance to low temperatures
- Virus-free variety
- Dark green leaves
- Excellent post harvest
- Origin: Israel

Growing Tips:

Due to the variables that influence the production of climatic, nutritional and cultivation practices, it is the producer Who should evaluate these situations. If you have any questions, our technicians will help you.

Product Photo:

The Variety shown was grown under favorable conditions.
Identical results are not guaranteed for all growing conditions
